## Statement in relation to recent activity on Twitter

ABA remains committed to providing tailored support and information to meet the needs of all those who wish to provide human milk to their babies. In proud partnership with Rainbow Families NSW, we offer resources tailored to the needs of the LGBTIQIA+ community, including:

[LGBTIQIA+ Breastfeeding Preparation Session](#)

[Breastfeeding, chest feeding and human milk feeding: Supporting LGBTIQIA+ families](#)

No member of ABA personnel has been instructed to step down from their ABA role in relation to their views around supporting LGBTIQIA+ families at any time.

ABA supports and values our volunteers and members who identify as belonging to the Rainbow Families community or as allies. We do not tolerate bullying and harassment of our personnel and those targeted on social media have our full support.
